

Why is a safari with Infinite Africa Safaris so unique?

Specializing in small groups of 1-10 guests, we offer a truly tailor made experience where only a single group is taken on safari. From the moment you set foot at the airport where you are collected until you are dropped off at your departure, you have a guide available to look after you 24 hours a day. Besides being a great safety feature, it makes the safari a relaxed and stress free experience.

What is the duration of a safari?

To properly enjoy what a safari has to offer, we recommend a minimum of 4 nights that will be split to two rest camps in Kruger. This offer the guest the opportunity to experience more than one ecosystem and a bigger variety of animals. Ideally a safari should last six nights, but the longer time spent, the more the guest will experience.
